

# Vision & Mission

---

## **Our Vision:**

We aim to be the catalyst and a driver of change to make people socially aware, responsible and empowered.

## **Our Mission:**

Our mission is to reach maximum number of people and improve their life and society by spreading awareness about education, health, environment and all the fields that impact their lives. We aim to prepare the next generation with strong moral and ethical values and skills for employment and entrepreneurship. We work towards the embodiment of good values in the society to live in peace and harmony.

## **Our Values:**

Our values are, to be committed and responsible citizens, making a better change in people's life. We believe in working together in communal harmony for the empowerment of individuals and trust that knowledge is best when shared. Our intention is to help others and promote national integration. We consider these are the essential values for any society to move forward.
